

Finding Answers

...through Testing

PERSPECTIVES PSYCHOLOGICAL TESTING

Psychological testing has long been a valuable tool in the mental health field to make accurate diagnoses, treatment recommendations, and much more. Here at Perspectives we are excited to offer these services to current clients as well as the community. For example, perhaps there is a question as to why a client is having attention/behavioral difficulties in school or an adult is having problems in his or her relationships. Psychological testing may be the key to taking the next step in improving life's journey.

You need not walk alone

**Testing is available
for adults and
children.**

**Testing can assess
ADHD, personality
profiles, diagnostic
questions, memory,
learning abilities, and
much more.**
